

Problem Set 1
S343
Summer 2009

This problem set will help you prepare for Quiz 1.

Topics of the quiz include the safety, lab notebooks, lab reports, solubility, extraction, drying agents, recrystallization, melting points, and TLC.

For practice, look at the old Quiz 1 problems and these questions from “Techniques in Organic Chemistry”.

Technique 8: Questions 1-6

Technique 9: Questions 1-3

Technique 10: Questions 1-2

Technique 15: Questions 1-2
